

FY04 DON Pilot Project Summary

Project Name: Speed to Capability Approval, Management & Planning Process - SCAMP (#1305)

Command: SPAWAR

Functional Area Manager (FAM): Command & Control

Pilot Summary:

SCAMP develops an automated enterprise-wide decision support process for approving the deployment of Fleet information systems. The pilot, sponsored by SPAWAR and the Program Executive Officer (PEO), Command, Control, Communications, Computers and Intelligence (C4I) and Space, should allow the DON to drastically reduce the current system approval process timeline, and return tangible enterprise manpower savings.

Business Value Added:

- Delivers improved speed to operational capability
- Replaces existing stove-piped approval processes with a single, centralized process
- Reduces time required to field products by 50%, improving Fleet readiness
- Utilizes NMCI approved software & Task Force Web development concepts
- A significant level of effort man-year savings is anticipated

Other Considerations:

- Endorsed by SPAWAR CIO, C3, Logistics & Enterprise Services FAMs
- Solid readiness driver through reduced installation timelines
- Addresses a known and significant business problem
- Web based solution integrated with SPAWAR's Installation database
- Extensible across the entire DON

Pilot Participants:

- SPAWAR San Diego

Targeted Users:

- SPAWAR PMs
- PEO C4I
