

# FY03 DON Pilot Project Summary

---

**Project Name:** eFacilities Support Contract (#291)

**Command:** NAVFAC

**Functional Area Manager (FAM):** Acquisition

---

## **Pilot Summary:**

e-FSC provides an on-line tool for ordering pre-priced and negotiable discretionary facilities support services (i.e., IDIQ CLINs) under Base Operating Services (BOS) type contracts. Through e-FSC, NAVFAC customers will have the capability to easily and securely use government purchase cards to procure Base Support Services such as facility maintenance, utilities, housing maintenance, grounds-keeping, and janitorial services through the DoD EMALL; to electronically place task orders directly to vendors; and give NAVFAC an asset management tool. This client-friendly, single point of entry system greatly streamlines the facilities service procurement process.

## **Business Value Added:**

- Faster procurement cycle time
- Delivery of service to clients is expedited
- Simplifies and streamlines the IDIQ ordering process for clients
- Efficiencies in government purchase card ordering

## **Other Considerations:**

- Currently scheduled for deployment Navy-wide in FY04

## **Pilot Participants:**

- NAVFAC
- Flag Housing - Washington Navy Yard
- Grounds- MCB Quantico
- Jacksonville RBOS

## **Targeted Users:**

- Facilities Managers
