

# FY03 DON Pilot Project Summary

---

**Project Name:** Base Operations Services/Facility Support Contract (#1136)

**Command:** Naval Facilities Engineering Command (NAVFAC)

**Functional Area Manager (FAM):** Acquisition

---

## **Pilot Summary:**

The Base Operations Services/Facility Support Contract (BOS/FSC) pilot encompasses two application components that enable the Naval Facilities Engineering Command (NAVFAC) to satisfy requirements established in Sections 801 and 802 of the FY02 DoD Appropriations Act. The Acquisition Strategy Tool (AST) provides the capability to analyze existing facility service contracts and agreements and develop regional facility service strategies. Navy specification writers use the BOS/FSC Template Tool (BTT) to leverage standard, performance-based work statements to be included in all new BOS/FSC solicitations and contracts.

## **Business Value Added:**

- Enables creation of regional BOS acquisition strategies by providing the analysis tools and accomplishment data from disparate sources required by regional commanders (AST)
- Facilitates and streamlines the performance-based specification writing processes through collaboration and implementation of standard business processes (BTT)
- Implements OPNAV N46 (Ashore Readiness Division) standards including Installation Management Accounting Project (IMAP) codes and level of service classifications (AST & BTT)

## **Other Considerations:**

- BTT portion of the BOS/FSC solution has support from NAVFAC Director of Acquisition to go into production
- BTT is viewed by NAVFAC as the platform to deploy the new NAVFAC BOS Templates
- NAVFAC has decided not to pursue production deployment of the AST portion of BOS/FSC due to unclear mission and responsibilities
- NAVFAC will explore potential for AST ownership by Commander, Navy Installations (CNI)

## **Pilot Participants:**

- AST: Naval District Washington (NDW) and Commander, Naval Region Southwest (CNRSW)
- BTT: PWC Norfolk, EFD Southwest, and EFD South

## **Targeted Users:**

- AST: CNI, Region and Base Commanders
- BTT: NAVFAC and Public Works Engineers/Spec Writers; NAVFAC Contract Specialists; Navy and Marine Corps Facility Managers
