

# FY03 DON Pilot Project Summary

---

**Project Name:** Technology eXchange Clearinghouse – TXC (#1260)

**Command:** SPAWAR HQ

**Functional Area Manager (FAM):** Command & Control

---

**Pilot Summary:**

The Technology eXchange Clearinghouse (TXC) provides an end-to-end eBusiness solution for the early identification and integration of technologies of interest to the DON's Programs of Record and technology oriented efforts, such as FORCEnet. TXC maintains both a web portal and web services for the dissemination of technology information. TXC is modeled on the Task Force Web and the Navy Enterprise Portal architectures for DON interoperability.

**Business Value Added:**

- Reduces time for product deployment by providing instant access to trade information
- Aligns Technology Products to Mission Capabilities

**Other Considerations:**

- Envisioned compatibility with NMCI, TFW, NEP/NMCP & DON eBusiness Portal through web services.
- Creates Single Technology Clearinghouse for DON.
- Places the responsibility on vendors to update their own data, while it is independently verified by the DON

**Pilot Participants:**

- SPAWARSYSCOM
- SPAWARSYSCEN San Diego

**Targeted Users:**

- Commercial Technology Providers
- Government Business Managers
