

PROCEDURES FOR REQUESTING Voyager FleetCommander ON NMCI

Voyager FleetCommander

Version	3.1.47
RFS#	36753
Instance Name	L_FLEETCMD_3147_W2K
ISF ID:	95338
DADMS ID:	28263
Status	Allowed with Restrictions

ISF Tools and DADMS both reflect the status of Allowed with Restrictions. eBusiness is currently addressing the issue of submitting the RTD for FCDR v7.0 to be NMCI tested.

APCs should request FCDR installation by:

- 1) Contact site NMCI CTR and verify FCDR is in the ISF Tool to insure it is on the rationalized list.
- 2) Contact site NMCI CTR to update the the "User To Application Map" list (UTAM).
- 3) Contact site NMCI CTR to inquire whether a MAC request will be required.
- 4) Contact the NMCI HelpDesk at 866-843-6624 and provide the information above.
